

ONEMailPro

High-end email management for multiple users

Industry Use Cases

Shipping

Commercial Fishing

Offshore Sector

OneMail Pro is an email management application intended for corporate network with multiple users. Specifically designed for the maritime sector, OneMail Pro is delivered as a secure, stable, cloud-based service for essential business communications.

OneMail Pro is part of the **OptiSoft** application suite by IEC Telecom. OptiSoft offers a wide range of communication services optimised for the maritime sector, including email management, antivirus, data transfer, remote configuration and administration of vessels.

FEATURES

Airtime independent: available to work with any airtime supplier

Restarts from point-of-interruption: resumes data transfer from point-of-interruption, if there is any break in communications

Flexible and agile: tailored to fulfil business specific needs and works with any front-end client such as Outlook. Also includes built-in webmail

Web dashboard: fleetwide remote management and configuration from a single dashboard. Includes pro-active alerts and automated reports

One-click pre-configured install: allows for simple, fast, and remote setup; no need to send an engineer

Vessel tracking: allows to track the location of your vessels

Financial control: per vessel pricing with unlimited mailboxes to provide financial predictability

No additional hardware: software-only solution, engineered to work across current hardware

Selectable mail flow option: includes mailbox preview to allow important messages to be prioritised
